PAY REGULAR VISITS TO THE WUNDERLICH SHOWROOM AND GARDEN DISPLAY

You can examine and handle examples of every article scheduled in this price list at the Wunderlich Showroom and Garden Display situated at the corner of Crown and Cleveland Streets, Redfern. A Crown Street tram from the City or a Cleveland Street, Coogee, Clovelly, or Maroubra tram from the Railway enables you to alight right at the door. Residents in the Newcastle district are invited to inspect our local showroom, situated at Builders' Exchange, 27 King Street, near Watt Street, Newcastle.

Architects, Builders, Home-lovers and Storekeepers are requested to make full use of the resources of the Wunderlich Showrooms. Every product is displayed in an ideal setting and the collection of modern building materials suitable for all Architectural uses is being added to daily.

To keep abreast of the trend in modern design and application of decorative and constructional materials you must visit the Wunderlich Showrooms regularly.

PARTICULARS OF SERVICES AVAILABLE TO WUNDERLICH CLIENTS

Design.—Take advantage of the services of our designers who are well versed in modern design and who will elaborate any scheme you may have in your mind. Designs and working details of Wunderlich Products furnished when required for fixing purposes.

Experience.—Obtain the advantage of experience extending over a period of 50 years in the building industry. Discuss your problems with our technical officers.

Expert Workmen.—Have your requirements fabricated by skilled tradesmen. All work completed quickly, efficiently and in strict accordance with specifications.

NOTE.—When ordering please specify STEEL (for interiors) or GALVANISED (for Awnings and exterior use).

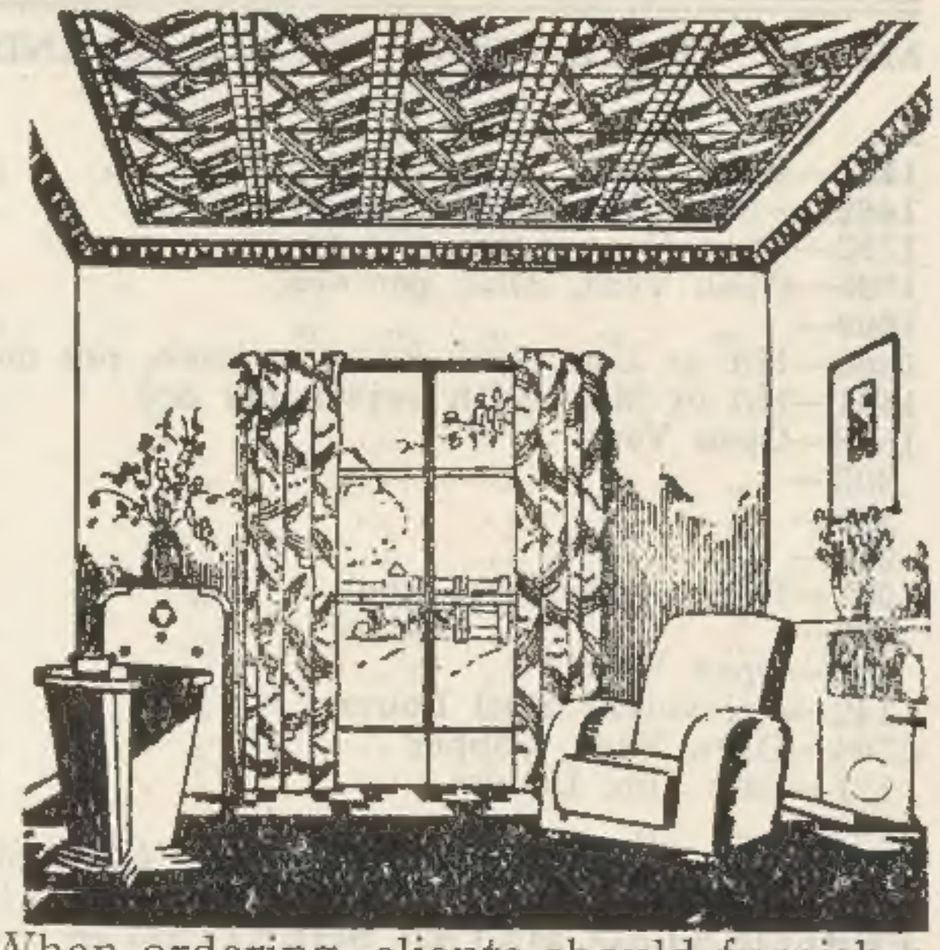
Free of Sales Tax.

NOTE.—When ordering please specify STEEL (for interiors) or GALVANISED (for Awnings and exterior use).

WUNDERLICH ART METAL CEILINGS

DESIGN RATES FOR MATERIALS ONLY—UNFIXED



The following Design Rates for complete Steel Ceiling Treatments, illustrated in our Catalogue M.81 and Supplement M.91, enable clients to calculate readily the total price for similar designs in rooms **of any size.** The prices give a rate per square yard for the ceiling, **exclusive of the cornice ;** the cornice is **extra** and the catalogue number of the cornice chosen must be specified by the client. For prices, see page 4.

These design rates cover the necessary Wunderlich Steel Ceiling material, including sufficient $\frac{7}{8}$" x 16-gauge nails for fixing the ceiling, and ample material to provide for any waste involved in cutting.

In addition, we supply a working drawing, showing the correct set-out of the battens and metal materials to the specified area. When ordering, clients should furnish a rough plan of the room to be ceiled, showing the direction in which the ceiling joists run and projections such as chimney breasts, piers, etc.

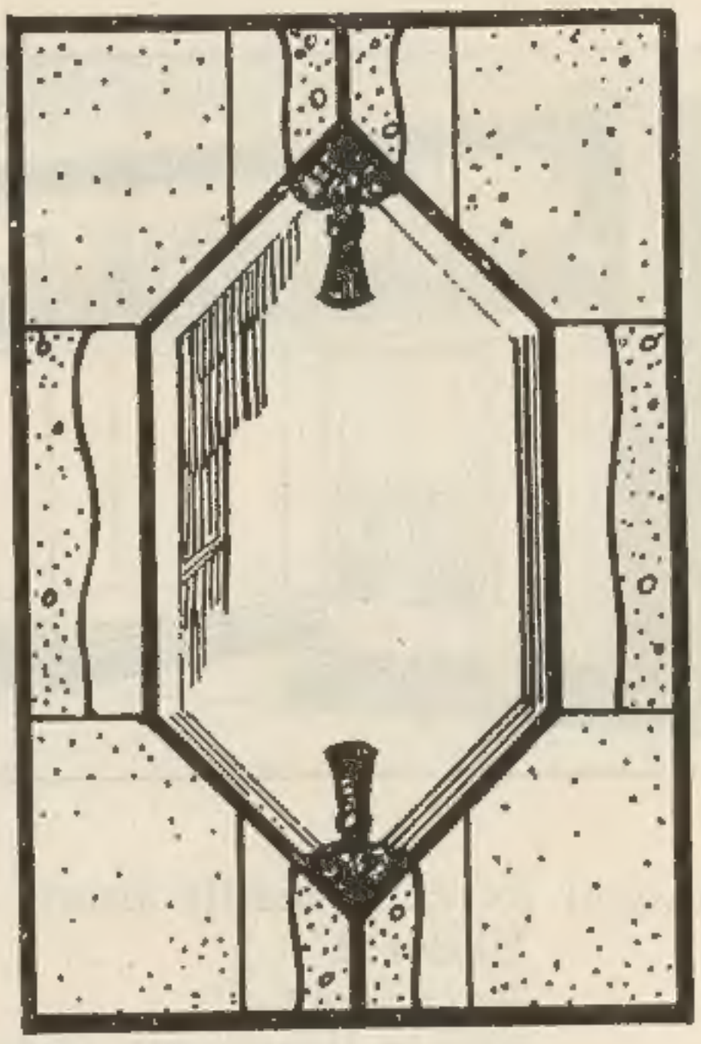
WUNDERGLAZE

ELECTRO - COPPER GLAZING

Wunderglaze (Electro-Copper Glazing) for windows, doors, lift enclosures, top hampers, domes, ceiling lights, modern lighting fixtures, etc., is distinguished from ordinary leaded glazing by the extreme lightness, rigidity and strength of the copper framework. Any design that can be carried out in lead glazing may be executed in Wunderglaze with far greater artistic effect, for the slender cames add delicacy to the design, and furthermore, leave a larger area for the transmission of light.

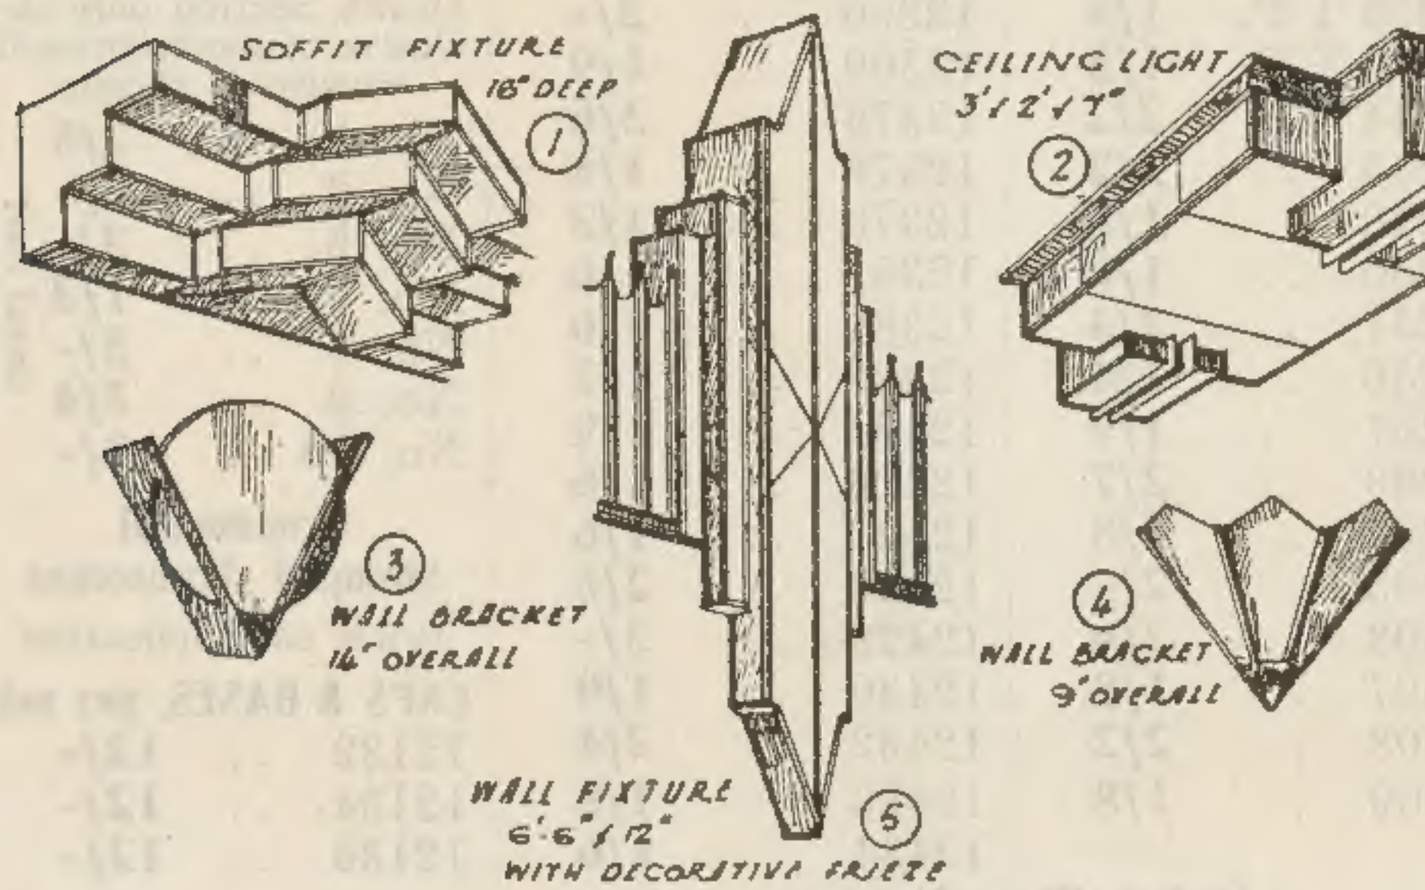


Wunderglaze is impervious to the entry of air or water, and when manufactured in accordance with the Fire Underwriters' Specifications is warranted a fire-resisting material and commands the lowest insurance rates.

Fire-resisting Wunderglaze must be fabricated in panels measuring no more than 4 square feet in $\frac{1}{4}$" Glass divided up into quarries of a maximum area of 16 sq. ins.

Where Wunderglaze is required for glazing purposes only, $\frac{1}{8}$" glass is generally used and is sufficiently strong to withstand rough handling. Send us particulars of your requirements; designs and prices submitted for any treatment at no extra cost.

Prices on Application.



Wunderglaze Lighting Fixtures for Walls or Ceilings.

Designs and Prices Given on Application.

DURATILE

(Registered Trade Mark)

Wunderlich asbestos cement Wall Tile Sheeting, mechanically prepared to represent 4″ x 4″ tiling. Ideal for lining walls of bathrooms, kitchens, shops, restaurants, corridors, also counter fronts.

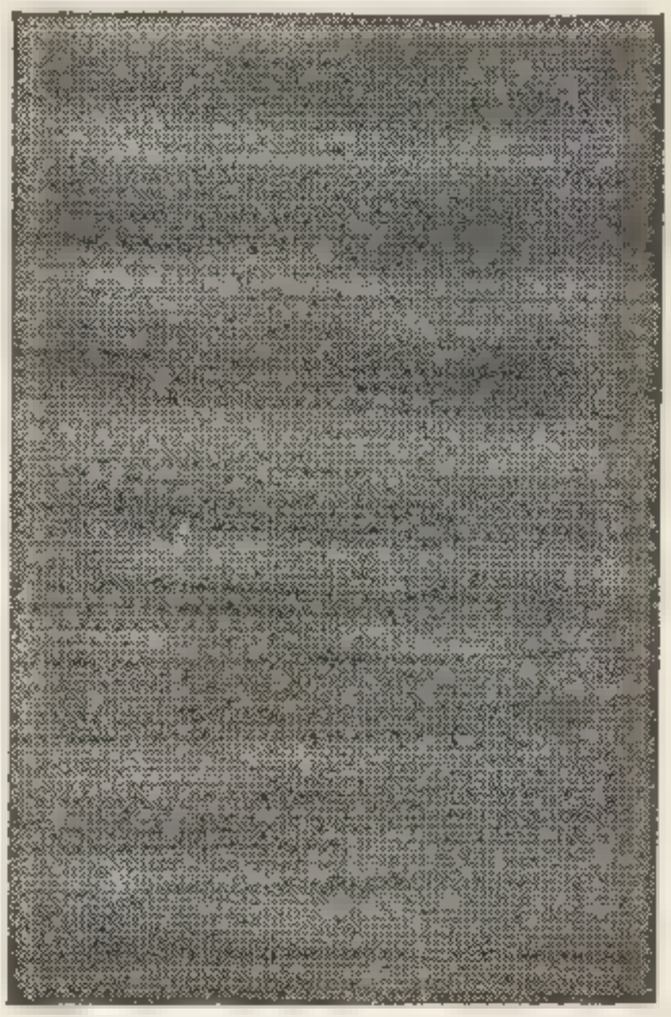
DURAVENEER

(Registered Trade Mark)

(Queensland Walnut or Maple)

An asbestos cement sheeting veneered with selected Queensland Walnut or Maple for panelling interior walls and partitions of office buildings, foyers, theatres, hallways, shops, sale rooms, show windows, banks, restaurants, homes, etc. Duraveneer combines the beauty of grained timber with the fire-resisting qualities of asbestos cement.

Available in sheets 2′ and 3′ wide, by 6′ long. The standard thickness is $\frac{9}{32}$″ (approximately).



Price on Application.

(Made to Order Only).

INSULABESTOS

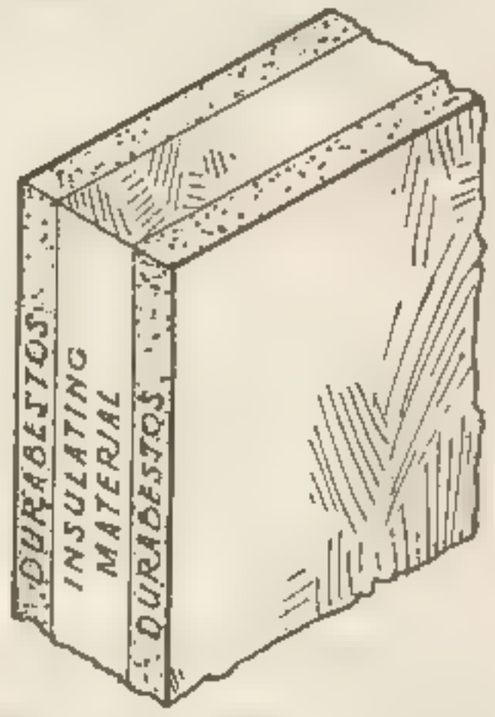
(Registered Trade Mark)

For fire and vermin proof and sound insulating partitions, walls, doors, etc. INSULABESTOS is a double-faced asbestos cement sheeting (faced on each side with $\frac{5}{32}$″ thick Durabestos), with a core of highly efficient insulating fibre. This sheeting possesses all the qualities of asbestos cement and in addition is an effective insulator. Available in sheets 3′ and 4′ wide, by 3, 4, 6, 7 and 8′ long.

The standard thickness is $\frac{3}{4}$″ (approximately).

Price on Application.

(Made to Order Only).



Section Through Insulabestos Sheet.

ASBESTOS MILLBOARD

Asbestos Millboard is suitable for industrial insulating purposes, also for acoustical installations to theatres, picture shows, etc., where fire-resisting treatments to walls, floors, ceilings, etc., are necessary. Available in sheets 3′ and 4′ wide by 3, 4, 6 and 8′ long, also 40″ x 40″ square.
Standard thicknesses are $\frac{1}{16}$″, $\frac{1}{8}$″ and $\frac{1}{4}$″ approximately.

	$\frac{1}{16}$″	$\frac{1}{8}$″	$\frac{1}{4}$″
Weight per square foot	5-oz.	8-oz.	16-oz.

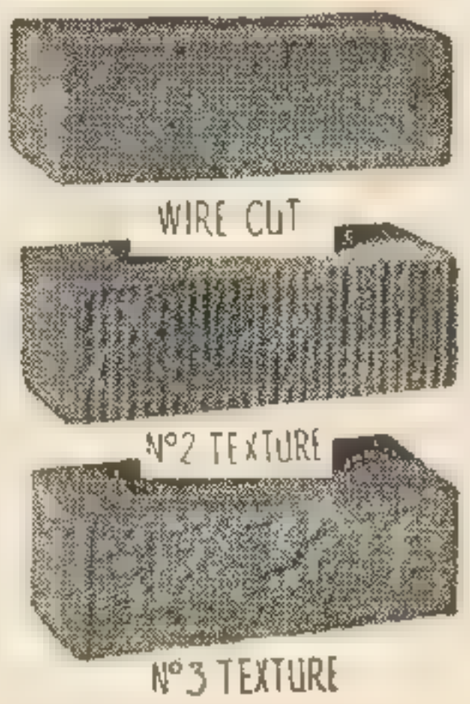
COLORTEX BRICKS



Wunderlich Face Bricks with a variety of crimped, rug-faced and wire cut textures. Available in a range of individual and blended colours, comprising Red, Brown, Yellow, Buff, Purple, Blue, etc., either matt surfaced or glazed.
Sizes : 9″ x 4½″ x 3″, 9″ x 4½″ x 2″ and 9″ x 4½″ x 1″.

Price on application.

Special Molded Bricks for base and string courses, architraves, door jambs, etc.

Price on application.

APPLICATION —

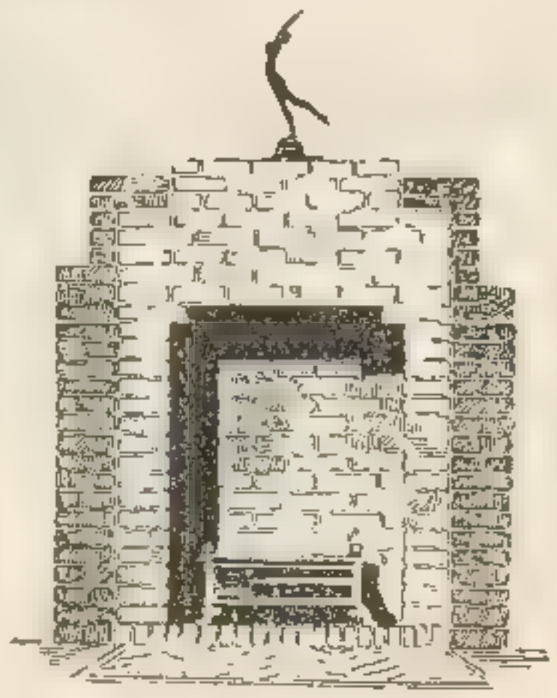
Joints.—Colortex bricks can be laid with either flush, struck or raked joints ; artistic effects are obtained by using coloured mortar joints.

Coloured Mortars.—Can be obtained mixed ready-for-use in standard colours of White, Cream, Red, Black and Green., These colours are guaranteed by the makers to be fadeless.

Laying. Different types of joints effect somewhat the method of laying ; however, no matter what type of joint is selected, attention is drawn to the fact that mortars should not come in contact with the face of Textured Brickwork as coloured mortars, especially Black, have a tendency to stain the surface.

Washing Down Finished Work.—It will be found necessary to wash down with a mixture of Hydrochloric Acid and water (one part acid to ten parts water). After applying, it is also necessary to thoroughly wash any remaining acid solution (whilst still wet) from the face of the brickwork with clean water, as this final washing prevents white scumming that sometimes occurs on badly washed down work.

BRICKETTES



Wunderlich Brickettes are small, wire cut bricks specially made for fireplace construction. Full glazed, flashed, and unglazed brickettes are available in ordinary clay. Colours include Red, Brown, Chocolate, Yellow, Purple, Buff and a variety of blended Autumn colours. Fireclay Brickettes are made in Colours ranging from yellow to smoky brown.

Size, 6½″ x 1¼″ x 3″. Price, **£9/-/-** per 1000 delivered in Metropolitan area or F.O.R. or F.O.B. Sydney (uncrated).

Free of Sales Tax.

COLORTEX BRICKS

ENAMELLED FACE BRICKS

Few materials lend themselves so effectively to the modern trend in design as does "**Wunderlich**" **Enamelled Face Brick.** Its colour, variety of texture and structural strength all commend it. Available in a range of standard colours, finished either smooth glazed or matt textured, the surface of the brick will not collect or absorb dirt or grime, or scale or discolor even under the severest climatic conditions.

Applications include complete facings or as a trim or decoration to spandrels, piers and band courses of office or civic buildings, stores, theatres, etc., also linings to corridors, restaurants, shop and shop fronts, bakeries, power stations, light wells and to indoor and outdoor swimming pools.

For floodlighting or night architecture they offer amazing possibilities.

Wunderlich Enamelled Face Bricks are available in standard sizes of $9\frac{1}{8}$" x $4\frac{1}{2}$" x $3\frac{3}{16}$" glazed on the stretcher or header faces and, if required, on the 9" x $4\frac{1}{2}$" face. Standard specials in the form of Bull nose, etc., are also available.

Prices on Application.

Glazed Square Hole Airbricks, 9" x 6" (all Colours) 3/9 each.

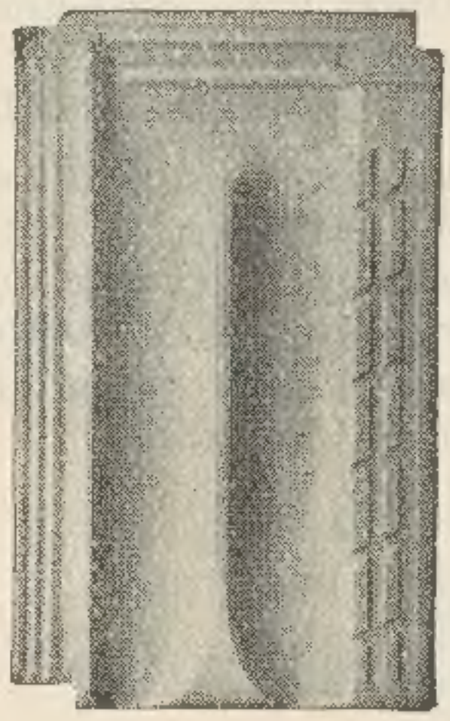
ROOFING TILES



Wunderlich Marseilles (French) pattern Roofing Tiles are available in a wide range of colours from shades of Red, Brown, Chocolate, Buff, Green, Blue, Golden Brown, in Mottled and Fire Flashed, semi-glazed and full glazed effects. They are to a marked degree resistant to the onslaughts of time and weather.

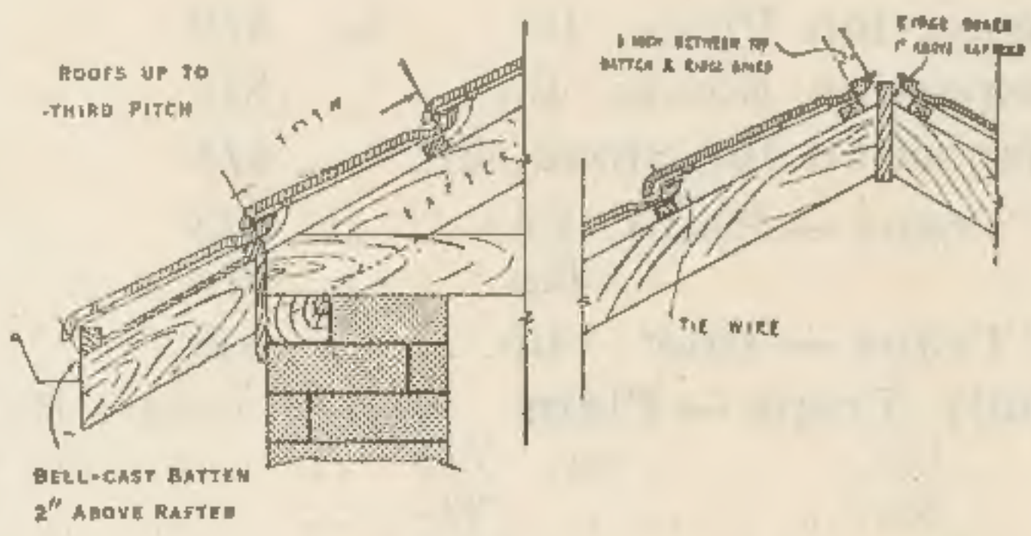
Shingle, both plain and weathered, and Mission Tiles, also manufactured in a full range of colours.

Quotations given for supply and fix, in any part of the State.

RAFTER MEASUREMENTS (Marseilles Tiles) —

To avoid cut tiles, set out rafters to the correct lengths given below. Work to these measurements to ensure a course of full tiles at eaves and ridge.

No. of Courses	Length of Rafter	No. of Courses	Length of Rafter
2.....	2ft. 4⅛in.	14.....15ft. 10⅛in.	
3.....	3ft. 5⅝in.	15.....16ft. 11⅝in.	
4.....	4ft. 7⅛in.	16.....18ft. 1⅛in.	
5.....	5ft. 8⅝in.	17.....19ft. 2⅝in.	
6.....	6ft. 10⅛in.	18.....20ft. 4⅛in.	
7.....	7ft. 11⅝in.	19.....21ft. 5⅝in.	
8.....	9ft. 1⅛in.	20.....22ft. 7⅛in.	
9.....10ft. 2⅝in.		21.....23ft. 8⅝in.	
10.....11ft. 4⅛in.		22.....24ft. 10⅛in.	
11.....12ft. 5⅝in.		23.....25ft. 11⅝in.	
12.....13ft. 7⅛in.		24.....27ft. 1⅛in.	
13.....14ft. 8⅝ in.			



Ridge Board should project one inch above Rafters. Hip Board should be flush with top of Common Rafters. Where a facia board is used, deduct its thickness from the lengths of rafters given above.

Pattern	Average Number of Tiles to Square of Roofing.	Weight of Tiles Per Square.	Battens to Square of Roofing.
Marseilles (French)	131	1,007 lbs.	90ft. 1½" x 1"
Mission (small	288	1,512 lbs.	160ft. 2¾" x 1" (sarked)
Shingle	560	1,260 lbs.	300ft. 1" x 1"
,, Rusticated	560	1,400 lbs.	300ft. 1" x 1"

ACCESSORIES.—Standard Ridge Capping (19" long, cover 16¾"), apex splays, finials, etc., available to suit all Tiles.
